LOADS MORE

STAGE V

ENGINE POWER
282hp (210kW)

OPERATING WEIGHT
19,551kg

TIPPING LOAD
10,468kg

LOADS MORE PRODUCTIVITY.

Choose between Standard Power Mode (224hp/167kW) for greater fuel efficiency, or Dynamic Power Mode (282hp/210kW) for increased productivity.

LOADS MORE PERFORMANCE

Our 6 speed powershift transmission with lock up, provides improved acceleration, hill climbing performance and faster cycle times whether it's in the yard or on the road.

LOADS MORE VERSATILITY.

The 457S is available with either standard lift and high lift arms. An optional tow hitch with integrated camera, provides even greater versatility.

LOADS MORE CAPABILITY

Up to two auxiliary services can be specified to allow a wide range of attachments to be utilised.

LOADS MORE COMFORT.

Our proven JCB CommandPlus cab is fitted as standard on the 457S. The spacious 3.4m³ cab provides excellent all-round visibility and a well laid out, ergonomic interface.

LOADS MORE FEATURES

A set and forget steering column and full colour LCD display, put you comfortably in control.

LOADS MORE UPTIME.

A large single-faced widecore cooling pack with automatic reversing fan removes build up chaff ensuring an optimum working temperature.

LOADS MORE RANGE

With an auxiliary fuel tank, the machine is able to hold over 400 litres of fuel for maximum uptime.

LOADS MORE QUALITY.

Advanced manufacturing techniques, including robot welding, accurate machining of componentry and precision paint technology, provide you with a robust, long-lasting machine.

LOADS MORE STRENGTH

Both our fuel and hydraulic tanks are integrated into the chassis, for added protection and strength.

WHEEL LOADER | 457S
